

List of items needed for older youth once they are on their own.

New items only, please. Also, make sure you place the price on each item for CMFCAA inventory purposes. Do not wrap items in gift wrap.

The reason for the personal hygiene kits: first contact with a new client usually includes the client's need for a shower before they leave the office. This is also true with repeat client visits to the office. CMFCAA will use the kits, however they will already have the soap, shampoo and lotions to add to them.

Drop off donations from **Monday, November 21st - Sunday, December 25th** and place them under the Christmas Tree in the Sanctuary.
